Safe, Secure
& Convenient

Community First Bank works diligently to keep your Business Online Banking safe and secure. You can easily verify this site's identity and security by looking for the green website address bar at the top of your internet browser. Your accounts are protected through advanced forensics that seamlessly authenticates your computer and various devices.

Flexible Solutions for Your Business Needs

ORIGINATE ACH TRANSACTIONS

You are able to securely originate ACH debit and credit transactions to/from your client's accounts. Our system utilizes a security token, which provides additional protection against unauthorized access and activities. This functionality helps to ensure that only authorized individuals perform transfers, giving the user yet another tool to combat fraudulent activity.

Remarkable People,
Remarkable Service

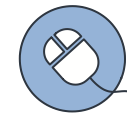

QuickBooks

Our online banking allows you to download and export your transactions to QuickBooks & Quicken making it easier to reconcile your business account.

Bill Pay

Bill Pay is a free service that allows your business to pay bills and vendors. You may send one-time or recurring electronic payments and checks to companies and individuals. This service also allows you the option for approval of bills, adding an extra layer of security against fraud.

Positive Pay

This tool is a convenient way to reconcile your business account on a daily basis and a great way to prevent fraud.
